

2024

Variability in water use behavior during drought of different grapevine varieties: Assessment of their regulation of water status and stomatal control

2023

Distinctive Role of Yeast Strain on Aromatic Profile of Wines Made from Minority Grape Cultivars: Chemical and Sensory Characterization of Aroma Components

Comparación de las aptitudes enológicas de Moscatel de Grano Menudo, Moscatel Serrano y Airén.

Evolved *Saccharomyces cerevisiae* strains to reduce ethyl carbamate in Sherry wines.

Variation in Susceptibility to Downy Mildew Infection in Spanish Minority Vine Varieties

Anthocyanin Identification and Quantitation by High Performance Liquid Chromatography Coupled with Mass Spectrometry (HPLC-MSn)

Analysis of the Free and Bound Fraction of Volatile Compounds in Musts and Wines by GC/MS: Results Interpretation from the Sensory Point of View by OAV Technique

Características enológicas de dos cultivares genéticamente relacionados: Benedicto y Tempranillo

Evaluación del estado hídrico de variedades minoritarias de vid de diferentes zonas vitícolas

[Influencia de diferentes estrategias de fermentación maloláctica sobre la duración del proceso y la calidad de vinos Tempranillo](#)
